ABOUT US

RAJ UDYOG

Raj Udyog a private venture established in 1990 has been a pioneer in manufacturing these indigenously designed entrance automation systems in India under the brand name OPEN SESAME We have been the pioneers in introducing this unique product line for the first time in India. Our products include boom barriers, garage door openers, gate openers, industrial rolling shutter openers, RFID access control and relevant accessories such as micro processor based logic control units, remote and receiver units, infra red sensors, etc. With a strong sales and service back up we have successfully installed and maintained more than 5000 such systems in South India. We undertake turnkey projects and our products are ideally suited for Individual homes, Industries, gated communities (Villa concept), Hotels, Commercial establishments, etc. .

Price, quality, 24/7 service, etc are some of the factors that totally set us apart from our competition. Plans are on the anvil to patent our design and protect our innovation. The current product and service is fully developed and serves the customers need. Customer delight will always be the priority and therefore the product will constantly be updated with the latest technology.

AUTOMATIC BOLLARDS

Automatic bollards are designed with security functionality in mind. Although designed as an effective safety barrier and quality security, it still retains aesthetic value. It is manufactured to provide strength and impact resistance for the property. Automatic Rising Bollards that can be installed in a variety of different applications, are robust and a high security method of preventing vehicular access. Our range includes automatic bollards with built-in flashing lights that operate during operation that can extend to a height of over 900mm with operational times of just seconds and crash Rated with K4, K8 and K12 certificate

REMOVABLE BOLLARDS

Removable Bollards is the most functional and at the same time attractive solution for controlling public and private vehicle transit and access to test areas, even with high traffic volumes. Removable Bollards are ideal for areas requiring temporary vehicle access. Use removable Bollards for multi-use spaces with a variety of day or seasonal applications. Bollard prices do not include removable mounting hardware.

FIXED BOLLARDS

Fixed Bollards is the most functional and at the same time attractive solution for controlling public and private vehicle transit and access to rest areas, even with high traffic volumes. Fixed Bollards are typically used to create a "stand-off" zone around critical buildings and assets that are vulnerable to vehicular intrusion. The Fixed Bollard series creates a secure but unobtrusive, pedestrian-friendly environment. The fixed bollard series has a wide range of crash ratings to meet your site's specific security needs. A range of decorative options can complement your facility architecture and blend in with the surrounding decor.

COLLAPSABLE BARRIER

Seal off Hazards and protect Against Accidents. Barrier Gates are Perfect for Temporary Access Control. You can seal off access to any area temporarily - for maintenance, cleaning and repair work-----and still allow multiple entry points. They're ideal for warehouses or factories, and for restricting access in retail environments.

ROAD BLOCKER

High Security Road Blocker is specially designed to prevent passage of any unauthorized vehicles with Road Blockers are high security system and it is strengthened against any attacks.
